CONDITION OF CROPS

Bulletin of the United States Weather Bureau.

SUFFERED INTENSELY

So Say Correspondents, Speaking of the Recent Drought—The Tobacco Plants Began to Fail.

The climate and crop bulletin issued by the local Weather Bureau for the week ending yesterday is as follows:

GENERAL SITUATION.

The dry weather that has been so marked a characteristic of the month, continued throughout the week, and the bulletin and conditions are fast assuming a droughty aspect all over the State. In a very few localities some relief was experienced at the close of the week by the occurrence of light showers, but with these exceptions the weather was ruinous, and crops of all kinds are suffering severely. The injurious effect of want of rain for the preceding three or four weeks, was accentuated in the week ending yesterday, and the prevailing drought in this way, pastures and grass, that had been holding up well previously, deteriorated rapidly. Gardens also suffered materially. About the only work that could be done was the cutting of clover, and for this the conditions were very favorable, the crop curing up well and being all gathered. The yield of corn was very good as a rule, but red top did not do so well and was short locally.

Winter wheat continued to head out, and there are a few correspondents, mostly in the Valley section, who report the crop to be promising, but as a rule straw by short and the heads are small and the outlook is not encouraging. Yellowing continues in many fields.

Spring oats have begun to head, and, like wheat, the heads are small and straw is short. The heading is uneven and yellowing seems general.

Spring corn is either deteriorating or at a standstill in growth. In nearly all portions of the State the crop is suffering severely, and in the Valley division there are some correspondents who report a good stand and a slight advance in condition.

Corn planting entirely ceased during the week, the land being so dry, hard and lumpy that it could not be gotten in, and the outlook is not encouraging. Yellowing continues in many fields.

Winter wheat continued to head out, and there are a few correspondents, mostly in the Valley section, who report the crop to be promising, but as a rule straw by short and the heads are small and the outlook is not encouraging. Yellowing continues in many fields.

RAVAGED BY TORNADOES

Great Havoc Wrought In Two Western States.

FIVE IN A SINGLE DAY

In Iowa Alone the Dead Killed by Storms in Past Twenty-four Hours Number Six, While Very Many Are Injured.

(By Associated Press.)
DES MOINES, Ia., May 26.—Iowa has been storm-torn for the past twenty-four hours. Three tornadoes, two last night and one to-night, resulted in the loss of six lives, the fatal injury of three persons, and the serious injury of a score of people, besides great property loss.

The dead at Glenwood: MAGGIE RIETNER, of Adasa, Ia., aged eleven years.
HAZEL WRIGHT, of Adasa, Ia., aged ten years.

Near Buxton: GEORGE BUCKLEY, HERBERT RHODES, At South Des Moines: RUSSELL A. KNAUFF, aged thirty years.

FLOYD KNAUFF, his eight-month-old son.
Injured—At Glenwood: Mark Eckert, Anna Delaney, Myrtle Dickinson, Elta Newton, Harrison, Johnson, and others.

Near Buxton: M. Rhodes, Mollie Rhodes, both fatal; Amy and Minnie Blakely, Seward, Lucy, George and Addison Rhodes, Bud Reaser, Mary Walker.

At South Des Moines: Mrs. Knauff, bruised and cut; Mrs. Margaret Boston, skull injured by falling bricks; Charles McKitt, hurt by flying iron line; Mrs. John McCoy, breast and head cut by flying glass.

STRUCK AN ASYLUM.
The victims at Glenwood were all inmates of the school for the feeble-minded. The tornado struck the building, from the roof was torn off and with a terrible crash fell back upon the wrecked building. All the buildings of the group, including the hospital, dormitory, boys' building, custodian's building, farm, and the boiler-room were more or less damaged by the storm. The superintendent estimates that the loss will be at least \$75,000. There is no insurance.

One of the buildings of the institution are situated on a slight rise and were a mark for the heavy wind which swept down on the structure with terrific fury. The boiler-room, including some fine machinery, lately installed, was wrecked. The boiler, which was being repaired, was carried for in the hospital, which is intact.

SMASHED TO SMITHERS.
The tornado near Buxton struck here at noon on May 26, and was a 10-foot wide, and a mile long. The storm came from the southwest and the destructive wind seemed to descend suddenly from a great bank of clouds, which was sweeping toward the northwest. The houses occupied by the Rhodes and Blakely families were smashed to kindling wood. The tornado struck south of Des Moines at dark to-night. It came from the south and was a mile long. The destruction was wrought over to the northwest as it approached the junction of the Des Moines and Racoon Rivers.

The property damage in South Des Moines and vicinity will reach \$50,000. The Kanam home and the Christian Church were wrecked and about forty other buildings damaged. About the same time, what was apparently another storm, struck the packing room at the Des Moines, near the scene of Sunday's heavy storm, and blew several buildings to splinters.

Another struck Herman, twenty-five miles north of Omaha, and the scene of death and destruction was a terrible sight. The home of D. B. Parish was demolished, and Mr. Parish, his wife and a child were seriously hurt. The school at Herman was a store which Omaha also experienced a storm which destroyed the school and other buildings in the south-west part of the city.

Accompanying the severe wind in every direction, a result of unusual resistance was a result of several towns in Eastern Nebraska are flooded.

The financial loss has been heavy, and estimates place it at several hundred thousand dollars.

One of the most severe storms was at Davenport, a small town northwest of Lincoln, which resulted in the injury of thirteen persons, none fatally. Several persons, however, sustained broken limbs.

The report received from there states that every dwelling and outbuilding in the town was wrecked. The storm in Lincoln did great damage in that city, the loss on buildings being estimated at \$100,000.

To the local Weather Bureau during the past twenty-four hours seven distinct tornadoes have been reported, varying in result from the destruction of a few crops to the day and to-night. The country is soaked and railroad traffic is badly hampered by soft tracks in many localities.

W. L. DOUGLAS \$3.50 SHOE MADE
You can save from \$3 to \$5 this Spring by wearing W. L. Douglas \$3.50 shoes.

They equal those that have been costing you \$5 to \$10. The immense sale proves their superiority.

You should have two pairs during the Spring and summer months, a pair of high tops and a pair of oxford shoes.

Don't pay \$10 to \$12 for these two pairs when you can get as much style, comfort, and service in two pairs of W. L. Douglas shoes for \$7.

W. L. Douglas makes and sells more new \$3.50 shoes than any other manufacturer in the world.

Made of the best imported and American leathers including Patent Corona and Patent Corona Calf. Boys all wear W. L. Douglas shoes.

Price, \$2.00 and \$1.75.
Past Color Eyelets used exclusively.

CAUTION! Name and price stamped on bottom of shoe. If not stamped on bottom, it is not a W. L. Douglas shoe.

Shoes by mail 25 cents extra. Catalog of Spring styles free. W. L. DOUGLAS, Boston, Mass.

WHITES CAPTURED SOLDIERS SURROUNDED HOUSE AND HE SURRENDERED.

Great Havoc Wrought In Two Western States.

FIVE IN A SINGLE DAY

In Iowa Alone the Dead Killed by Storms in Past Twenty-four Hours Number Six, While Very Many Are Injured.

(By Associated Press.)
JACKSON, Ky., May 26.—The capture of Tom White, the return of Curtis Jett to Breathitt county were the events to-day on which chief interest focused. The question of whether more troops are needed is agitating the minds of many to-night. While nothing has occurred to arouse apprehension, there have been suggestions that do not make all feel secure. The authorities feel that if more troops shall be needed they will be badly needed, and that any emergency will be abrupt.

There is a well defined belief that when Jett and White shall be put on trial there will be a confession, and that a number of prominent men must be implicated. It is argued that an army of men could be gathered quickly in the interior of Breathitt county. It could sweep down on Jackson, and, under the pretext of seeking, secure the prisoners, possibly kill some who possessed knowledge, and apply the adage that "dead men tell no tales."

It is true that this would be a desperate undertaking, but desperate things have been done in Breathitt county, and this view may not seem as intemperate there as it would seem improbable elsewhere. At any rate Mrs. J. B. Marcum, her friends, and some citizens are urging that more troops be sent, believing that the men now here are scattered among various stations could not cope with a mob of mountain men.

A consultation among officers was held to-day but further than ordering another galling gun from Lexington there is no indication that reinforcements will be requested.

HOUSE SURROUNDED.
Tom White was arrested at the home of his mother, eighteen miles from here at night, by a squad of soldiers, under Deputy Sheriff Jett, who made the arrest. The house was surrounded and White was called out. When he reached the fence, the warrant was read, and accompanied by soldiers, he returned to the house and dressed. The party reached here this afternoon, and White was remanded until to-morrow morning when he and Jett will be arraigned together. At the advice of his attorney, Judge John Noble, he declined to make a statement.

James Johnson, a nephew of the late James B. Marcum, guided the soldiers to where Tom White was found. He and twelve soldiers went to Winchester to-day and the order for Jett was honored by Judge Benton. He was placed in irons and carried here and was committed to jail this evening.

He has employed B. F. French, of Winchester, as counsel. An effort was made by his attorney to get a change of venue. If this fails, he will endeavor to have the jury summoned from outside of Breathitt county, which would mean the officials of Breathitt county. He blames them for not coming to his relief.

White was heavily guarded by soldiers. Judge Redwine this evening issued an order placing the jail under military control and Jett and Spencer turned over the keys to Colonel Williams.

Wanted in Haywood Case.
Mr. B. Ed. Finnegan, of this city, was an eye-witness to the Haywood-Skinner tragedy in Raleigh, N. C. Yesterday Mr. James H. Pott, attorney for the defense, through the court, ordered that Finnegan be taken to Richmond to secure Mr. Finnegan as a witness in the case or to get his affidavit. Mr. Finnegan cannot be forced to go to North Carolina, but as his affidavit would not be admitted as testimony, he will not be heard in the case and a substituted homicide case is about to be tried.

NEWS IN BRIEF
FROM THE COUNTRY AT LARGE

LOS ANGELES, CAL.—The subjects of home missions and aid for colleges in the State of California were discussed at the annual session of the California General Assembly to-day. The notable speech of the day was made by Senator Charles L. Thompson, of New York, whose denunciation of Mormonism was greeted with applause from the Assembly and the gallery.

INDIANAPOLIS, IND.—The National Commission on the subject of home missions and aid for colleges in the State of Indiana was adjourned after deciding to meet in Indianapolis in 1906.

ATLANTA, GA.—Argument before the United States Court to-day before Judge D. A. Perdue in the Louisville and Nashville Railroad case. The court was divided 4-4 on whether the temporary injunction recently granted by the court restraining the Florida Railroad from operating on the lines of the Louisville and Nashville in Florida shall be made permanent and perpetual.

MANILA.—Lieutenant Javier, commanding a force of constabulary and volunteers, has been ordered to the island of Cebu, killing sixty-eight of them and capturing the rest. The light occurred in the mountainous region of the island.

CHICAGO.—Judge Grosscup in the Federal Court to-day entered the final order in the so-called "beef trust" case restraining the packers from monopolizing the market.

The order is regarded as a complete victory for the government. An appeal will be taken.

MEMPHIS, TENN.—The grand jury to-day returned an indictment against Mrs. Lizzie McCormick, charged with murder in the first degree. The case was set for trial at 2 o'clock to-day, charged with sending a bottle of poisoned whiskey to a woman in Cincinnati, which caused the death of one person.

NEW ORLEANS, LA.—The Tavern Hotel was burned to the ground to-day. The loss was \$100,000, with \$20,000 insurance. This was one of the handsomest hotels in this section of the country.

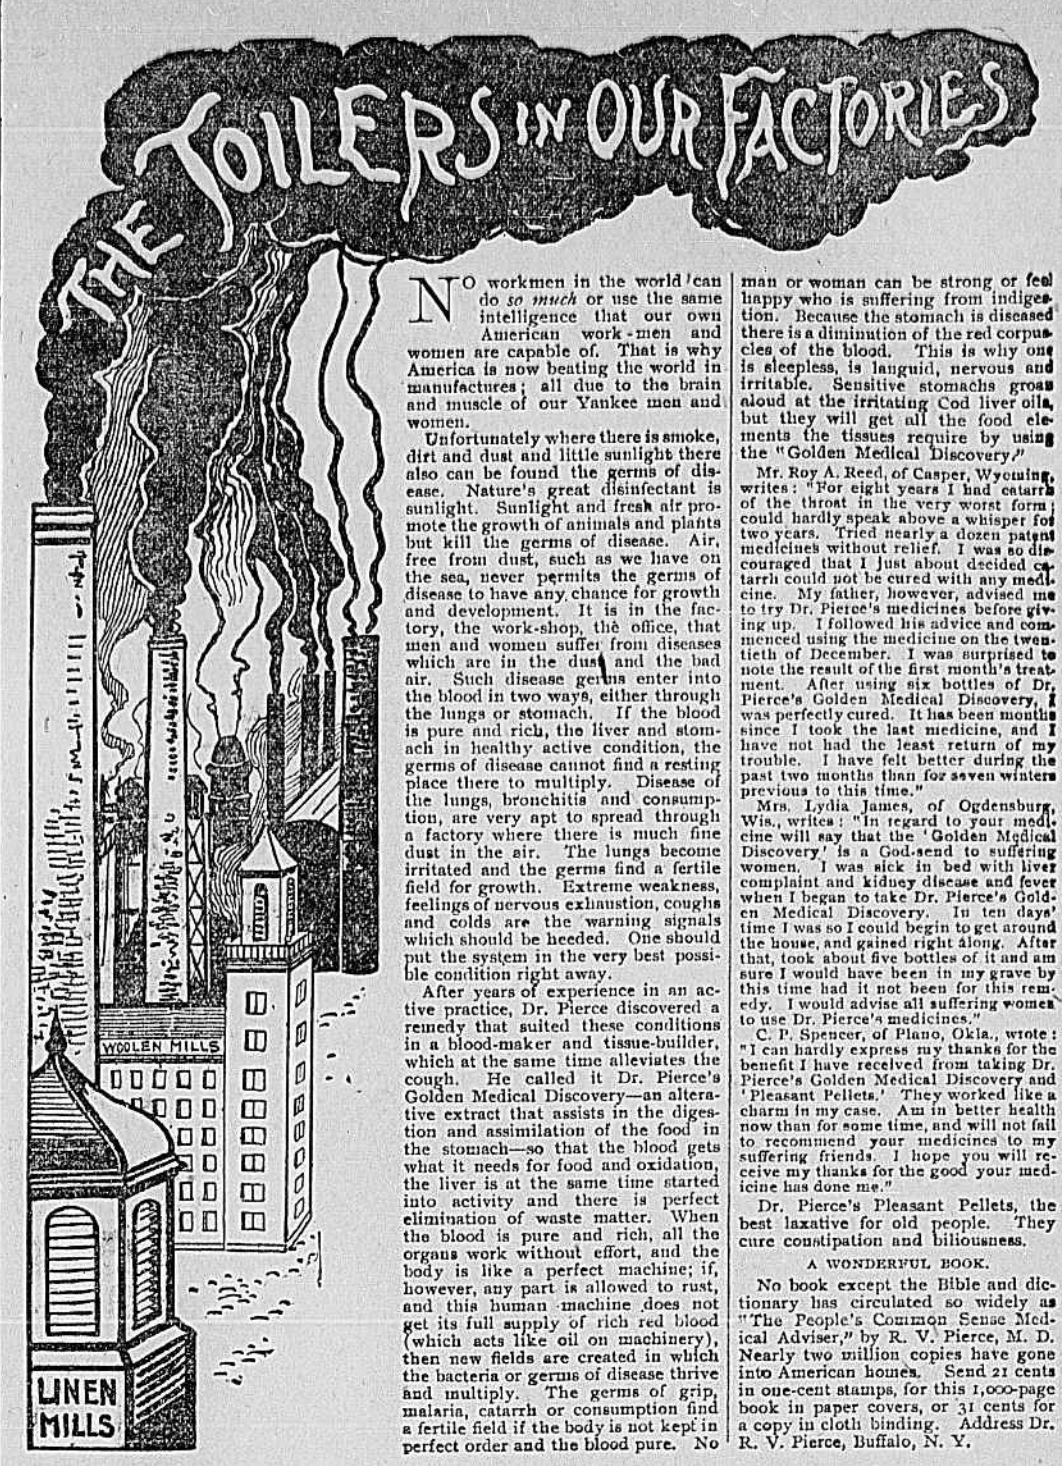

NASHVILLE, TENN.—The General Assembly of the Cumberland Presbyterian Church fixed to-morrow for the consideration of the question of amending the constitution of the church. The report of the committee would be unanimous in recommending the adoption of the resolution introduced by the members of the church, and the appointment of a committee of nine to confer with similar committees from the Northern Assembly. The assembly adjourned to-day.

BREMEN, GA.—Thomas Gray, whose extradition to the State of Texas was honored some days ago by Governor Terrell, was to-day ordered by Judge Bartlett to be committed to the custody of the United States Marshal at Dallas, Texas, as the next place of meeting.

LONDON.—A mass-meeting of Lancashire cotton spinners was held to-day to discuss the trade situation. The meeting endorsed the action of the Federation of Manchester cotton spinners, which on May 15th adopted a resolution recommending that the whole trade stop for one week at Walsley, and on Saturdays and Mondays thereafter until further notice.

LOWELL, MASS.—It was officially announced to-day that an attempt would be made to resume operations at the cotton mill here on June 1st. The mill was shut down on Tuesday, March 23rd. The announcement was not wholly unexpected. It having been known that some of the mill officials desired to resume.

EUPATIA, ALA.—Mrs. J. S. Arlington, aged fifty, and her son, Robert Arlington, aged twenty, were reported last night at 2 o'clock to have been shot by a mob of about 200 men, ten miles below Louisville, Ala. Before she died Mrs. Arlington named a negro man named George as the murderer. Officers with bloodhounds have left for the scene of the tragedy. Robbery was the motive.

FUNERAL OF FATHER RYAN

Church of the Immaculate Conception Crowded.

CARDINAL GIBBONS THERE

Impressive Service—An Eloquent Tribute Paid by Rev. Father Fletcher.

His Former Assistant—Many Priests Attended Rites.

The mortal remains of Rev. Stanislaus Francis Ryan, for more than twenty years pastor of the Church of the Immaculate Conception, Eighth and N Streets, were laid to rest to-day in Mt. Olivet Cemetery.

The funeral services took place at 10 o'clock this morning in the church over which the well-known priest presided for almost a quarter of a century. More than one hundred members of the priesthood of his charge, were present to pay a last tribute to his memory.

His Eminence, Cardinal Gibbons, arrived in Washington last night at Westport, Md., that he might officiate at the funeral and give the last absolution. Other high dignitaries in the church came from distant places that they might add their presence to the solemnity of the occasion. The flowers sent by the members of the parish as well as those sent by intimate friends outside the church added silent testimony to the high esteem and affection in which the deceased was held.

Long before the time set for the funeral the church was surrounded by members of the parish as well as hundreds of others who had known the eminent divine in social and business life. Because of the anticipated rush, admission was by card only. Before 10 o'clock the church was crowded to its capacity and many were prevented from seeing the funeral service.

The body of the late rector lay in state in the center aisle of the church. To the right and left of the altar the many floral emblems were displayed in the most beautiful manner. The church was decorated in black emblems of sorrow and death.

The service of the office for the dead was rendered by the clergy. The Rev. Father James M. O'Brien, rector of St. Peter's Church, was celebrant of the solemn high mass. The Rev. Father Thomas

NO workmen in the world can do so much or use the same intelligence that our own American workmen and women are capable of. That is why America is now beating the world in manufactures; all due to the brain and muscle of our Yankee men and women.

Unfortunately where there is smoke, dirt and dust and little sunlight there also can be found the germs of disease. Nature's great disinfectant is sunlight. Sunlight and fresh air promote the growth of animals and plants but kill the germs of disease. Air, free from dust, such as we have on the sea, never permits the germs of disease to have any chance for growth and development. It is in the factory, the work-shop, the office, that men and women suffer from diseases which are in the dust and the bad air. Such diseases germs enter into the blood in two ways, either through the lungs or stomach. If the blood is pure and rich, the liver and stomach in healthy active condition, the germs of disease cannot find a place there to multiply. Disease of the lungs, bronchitis and consumption, are very apt to spread through a factory where there is much fine dust in the air. The lungs become irritated and the germs find a fertile field for growth. Extreme weakness, feelings of nervous exhaustion, coughs and colds are the warning signals which should be heeded. One should put his system in the very best possible condition right away.

After years of experience in an active practice, Dr. Pierce discovered a remedy that suited these conditions in a blood-maker and tissue-builder, which at the same time alleviates the cough. He called it Dr. Pierce's Golden Medical Discovery—an alternative extract that assists in the digestion and assimilation of the food, what it needs for food and oxidation, the liver is at the same time started into activity and there is perfect elimination of waste matter. When the blood is pure and rich, all the organs work without effort, and the body is like a perfect machine; if, however, any part is allowed to rust, and this human machine does not get its full supply of rich red blood which acts like oil on the machine, then new fields are created in which the bacteria or germs of disease thrive and multiply. The germs of grip, malaria, catarrh or consumption find a fertile field if the body is not kept in perfect order and the blood pure. No

man or woman can be strong or feel happy who is suffering from indigestion. Because the stomach is diseased there is a diminution of the red corpuscles of the blood. This is why one is sleepless, is languid, nervous and irritable. Sensitive stomachs grow ailed at the irritating food liver oil, but they will get all the food elements the tissues require by using the "Golden Medical Discovery."

Mr. Roy A. Reed, of Casper, Wyoming, writes: "For eight years I had catarrh of the throat in the worst form; I could hardly speak above a whisper for many years. Tried nearly every patent medicine without relief. I was so discouraged that I just about decided catarrh could not be cured with any medicine. My father, however, advised me to try Dr. Pierce's medicines before giving up. I followed his advice and commenced using the medicine on the twentieth of December. I was surprised to note the result of the first month's treatment. After using six bottles of Dr. Pierce's Golden Medical Discovery, I was perfectly cured. It has been months since I took the last medicine, and I have not had the least return of my trouble. I have felt better during the past two months than for seven winters previous to this time."

Mrs. Lydia James, of Ogdensburg, Wis., writes: "I can hardly express my thanks for the benefit I have received from taking Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' They worked like a charm in my case. As a result of taking them for some time, and will not fail to recommend your medicines to my suffering friends. I hope you will receive my thanks for the good your medicine has done me."

Dr. J. C. Spencer, of Plano, Tex., writes: "I can hardly express my thanks for the benefit I have received from taking Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' They worked like a charm in my case. As a result of taking them for some time, and will not fail to recommend your medicines to my suffering friends. I hope you will receive my thanks for the good your medicine has done me."
